MONITOR series PIONEER

| YZ 2710

The monitor that turns a smartphone into a Desktop PC

The new Smart TypeC + technology of Yashi Pioneer S 27 TypeC + monitor allows you to connect smartphone * or tablet, keyboard and mouse directly to the monitor and turn it into a real desktop PC!

Through the USB TypeC + port the audio and video signals pass from the smartphone to the monitor while the Android system recognizes the keyboard and mouse connected to the two USB ports.

VANTAGGI

The new **Smart TypeC + technology** allows you to connect smartphone * or tablet, keyboard and mouse directly to the monitor and turn it into a real desktop PC!

IPS
VIEW

The **IPS** panel offers a very wide range of colors, wide viewing angles, precision and high quality of vision.

SLIM
FRAMELESS
DESIGN

The **frameless** display allows a full screen vision thanks to just 2mm thickness.

Low Blue Light function reduces the emission of blue and violet frequencies. An important feature to protect our sight.

1ms
Response

The **1ms response time** with Overdrive technology, guarantees smooth images and video.
