# YZ4141 40" 4K UHD Curved

Dimensions and technical features make the Pioneer 40 Curved the perfect monitor for multimedia, with an extraordinary immersive vision experience for images, videos and games with extraordinary realism and the best dynamic performance.

## FEATURES

### Large 40" display with 4K UHD and one billion colors

Important dimensions, useful to better visualize the Ultra HD resolution in 4K (3840x2160), the 8bit + Hi-FRC panel reaches a spectrum of over one billion colors. The PVA3 panel technology offers deep black, color accuracy, high contrast and very low response times (2 ms) for realistic videos and games full of effects and colors with Amd Freesync compatibility.

### The Curved Display for an extraordinary immersive experience

The panel has a R2000 curvature, specifically designed for use with Computer to offer a new immersive viewing experience, even in Ultra HD 4K resolution.

The curved panel also offers a natural conformation to the retina curvature for a relaxing vision and less stimulation of the optic nerves.

VESA

### HDR technology for extraordinary digital effects

The realism of moving images is enhanced by HDR technology (High Dynamic Range) that goes beyond the reproduction of the signal by offering additional data that can artificially create light and shadow enhancements for extraordinary digital effects.

## MONITOR series PIONEER 4K YZ4141

## Specifications

### Display

40" 4K CURVED  
3840x2160 pixel  
PVA3 Panel

### Features

R2000 Curved  
1.07 Billion colors (Hi-FRC)  
HDR10 technology  
Low Blue Light function  
Free-sync technology

### Response Time

2 ms (OverDrive)

### Brightness

300 cd/m<sup>2</sup>

### Contrast

5.000 :1 (typical)

### Pixel Pitch

0.23 mm

### Maximum Frequency

60 Hz

### Viewing angle

178° / 178°

### Input Audio /Video

2x Display Port  
2x HDMI  
1x Jack Audio

### Speakers

2 integrated Speakers stereo  
2x 2Watt

### Power Supply

Internal power adapter

### Box Content

HDMI 2.0 cable  
Power cord  
Manual
