MANHATTAN WS AIO series

The only All In One Workstation class

Yashi Manhattan WS series stands out for the great design and for the all in one form factor.

This type of all in one is created for our most demanding customers that have to use professional graphic applications or want play with videogames of last generation.

FEATURES

Better performance thanks to new constructive technologies (14nm++) that allow up to 8 Core and 5GHz of frequency in 16-way multitasking.

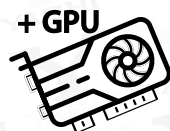

The **frameless** display allows a full screen vision thanks to just 2mm thickness.

Italian style and design with a minimalism and simple shape that suits every furniture's context.

IPS technology guarantees a wide view angle, deepness of color and an ideal contrast for every condition of environmental light.

Reliability in rendering and computing power up to 3 TeraFlops to work with the best CAD, solid modeling and digital video production applications.

MANHATTAN WS AIO series
